****Boring spoilers ahead!****

I was really dissapointed. The movie had one good scene and that was it.

Here's how the movie goes:

A lot of nothing, just people standing around talking.

A great scene! He caught a plane!

Pining.

A pretty good scene! He flew around and caught some stuff.

Pining.

An okay scene. He lifted something heavy.

Pining.

He lays around in a hospital bed.

Pining.

The end.
