this topic has really gotten off topic. start a spidey thread for your spidey talk. I am shocked that a hot lesbian chick wearing a tight leather bat outfit isn't enough for you guys to talk about. You would think there would be hours of things to say on a topic like that.

peter parker blew his cover ID??? so what.

they killed phoenix AGAIN? this is...what, the millionth time? whoopie.

Yes, it's time they started making the charators like real people. When are people gonna wake up, look around, and smell the orange juice? As long as you can carry you part of the load...I'm ok with it. So, She like carpet over sausage...so do I. What's the big deal?

Why not have a draw-off...se who can come up with the best new costume for Her? Winner gets a date with...Daffy Duck.
