I just wanted to be the first to say how truly and thoroughly offended I am by this week's top 10 thumbnails.

I continue to be offended, the longer I stare at them.

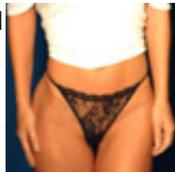

especially offends me.

is a close second.

I just can't decide about #1

, I think I need to continue to stare at it and risk being further offended.

So just to be clear on the subject, I am really, really offended.

Really.
