Hi Bio & HM Mods,

I'm back with my usual RULES question. I want to enter the FemBot contest but...

I want to pencil (and maybe ink) a body and scan it in. Then I want to pencil (and maybe ink) a body part drawn at 2x the size of the body to add detail. Then I want to scan the body part into a file, reduce it by 1/2 and then merge it into the existing body. OK??

Sincerely,

MsVee
