Some time ago, I was surfing the net, looking for wallpaper art, & I came across Heromorph. The photomanipulations caught my eye, & artwork was equally engrossing, often of professional caliber (to my very unprofessional eye). I do read the forum, & I find the topics interesting & entertaining. Frankly, it never occurred to me to comment, since i have no artistic talent; do rave reviews improve the quality of the artist's work?

I apologize . . . certainly the effort & results are appreciated. Heromorph features a variety of exceptional talent, updated with astonishing frequency, to a greater extent than any other site I have found.

Thanks to all the contributors, &, please, have patience with your silent fans.
