I, for one, have liked exiles since I read the first what if series from the seventies or eighties and the ideas from them on possible alternate worlds was always fascinating. being a writer and artist for my own books, I think that the <http://heromorph.com/heromorph2/images/subject/icon25.gif> <http://heromorph.com/heromorph2/images/subject/icon25.gif>wo greatest words in the english language are "what if?". <http://heromorph.com/heromorph2/images/subject/icon14.gif> <http://heromorph.com/heromorph2/images/subject/icon14.gif> the characters are strong, the plots intreging and the villains rough. they need to bring back Mimic for Blink though, they work good together...<http://heromorph.com/heromorph2/images/subject/icon20.gif>
