What you want doesn't count, cuz you have nothing to give (dumbass, if you were smart you would have at least offered your eternal thanks and undying praise or something).

3)i dont have photoshop or any photo editing program

Wow, I *wish* there was free photo editing software. And I *wish* someone who make a forum thread linking to that software.

(for my third wish I want a snappy comeback to his 4th point)

4)i wouldnt wank off to it,only perverted people would bring such a thing up like that

Well here at HM you're either perverted or you're GAY (or a transvestite supergirl wannabe, which is perverted and gay).

In Britain batty-boy is a term that means gay so I guess you were trying to tell us all along. But hey, if you ever want to switch to perverted like the rest of us we'll give you tips on cleaning your keyboard (or in my case, ceiling).

Good question. Does anybody have any links to a website full of superheroine manips?
