hey Jr

how's it going? you know BLUEBEETLE3'S digital manip of River Tam in THE HEROMORPH GALLERY? well, she is in FIREFLY and SERENITY. I like to see a manip of River kicking the you-know-what out of the Reavers.

You see Neil you have gone and done it. Explaining something to Jr. is kind of like explaining something to a friendly Dog. Sure he will look at you with his ears perked up and pretend to be interested but really no matter what you say he is only thinking about humping your leg.

OK... now that was funny!!!
