Yeah how do you post fanfic I cant upload any images or type and I dont know where to go to type Fanfic

Click the Fan Fiction link in the main menu. That will take you to the Fan Fiction section. Then take a look at the main menu again, it will have changed. Listed below Fan Fiction you will see a link "Submit News". That will take you to the app that allows you to submit your story.

If you are trying to upload an image to the galleries just click the "Add Photo" button.

Please review the [Posting Policy](#) and the [FAQ](#) prior to posting.
