Ok, just cuz I read a comment before I decided to say anything.

I've seen 2 different Superman tv shows that bombed..... before they came up with Dean Cain. I seriously doubt they'll let the Superman movies die.

Now, the reason I'm commenting about this.... As you might have put 2 and 4 together and got 12..... Yeah, I just bought the movie. That was some serious dodging. And it's not a bad movie at all.
