Don't worry, no offense taken; and I can completely understand your point of view.

I clearly recall the words of Wyatt (or is that now Johnny Smith?
) from "Weird Science": 'More than a handful and you sprain your thumbs'; but I fall on the side of the jocks later in the film: "Bigger Tits!"

I guess part of what I'm trying to say is that if I should see something posted (on any erotic (or semi-erotic) art forum that I don't particularly like, I choose to remain silent rather than point it out to the artist. And believe me, there are certain artists out there whose work I love, except for certain 'additions' (anyone else familiar with Kinky Jimmy?
). But that is his style, so oh well, whatever makes him happy.
