1) I resolve to always put the name of my models in for BB. Whether they are real or made up. Like I would make up a model's name...

2) I resolve to do a 3D render art thingy in 2007. Assuming I can steal (or otherwise come by) some software to do it with.

3) I resolve to get a better computer.

4) I resolve to floss daily.

That's about it. Anything else would be overambitious...
