Neil, am I reading this correctly, are you seriously turning the death of a ditzy celebrity into a Fart Manip request? Have you no shame?

I guess that's a self-answering question...

Anyway, I am hijacking your Thread. My question is this: What did she die from? Now, I have not seen any reports yet, so if you have don't cheat.

My guess is, either a drug OD \_or\_ she gained and lost weight too many times too fast, and her heart couldn't take it.

What's your guess? Remember, no cheating!
