hi kids!

fun storm yesterday, huh?

anyhoo, I came up

with something interesting for a request. I got the idea from when I was in high school band. I give you Majorette Mimi. she's a typical "rich bitch" who was majorette from sophmore year in high school through college and would humiliate freshmen who joined the band. she is now an accomplished assassin.

1. toes of her boots conceal poison-tipped spikes
2. the visor of her shako hides a blade ala Oddjob
3. her left glove conceals a wire for garroting
4. the buttons of some of her uniforms are bombs
5. the top end of her baton emits gas(sarin,racine,etc)  
the bottom end conceals an eight-inch spike

for the model, I was thinking Mariah Carey. she could be standing over a couple of victims holding a baton with the spike sticking out dripping blood. her main uniform could be a red sequined leotard with a black M over her left breast. it can be photomanippped, cartoon or

. makes no difference. something other than the usual "gassy heroine/villianesses" for a change of pace. the URL is this:

here we are. anyone interested?
