Wandering through the city in search of some new answer, she encounters a mysterious woman with black hair and blue eyes, who says she's come to Nanda Parbat for redemption after killing a man. The woman advises Renee to meditate in a mystical cavern with reflective walls until the walls reveal her true purpose.

FYI the "mysterious woman with black hair and blue eyes" is Diana -Wonder Woman and she talking about when she killed Maxwell Lord in Identity Crisis.

Gouge

Well, duh. The silver bracelets were kind of a dead giveaway...
