If your are not fussy about having the latest and greatest version of a program, someone claiming to be e-frontiers has been selling shrink-wrapped copies Poser 5, Shade 7, Shade 7 LE on e-bay for a few months. The listings run for about a week at a time and may be bundled together with a book or another program.

Here is a search link for the seller:

http://search.ebay.com/_W0QQsassyZe_frontier_america_incQQhtZ-1

Maybe there is a cheaper/better place to find older versions of Poser.
