I started watchin the ILLEGAL DOWNLOAD just to see if my opinion would be different, but no it's still a bag of shite!

It's a cheesefest pure and simply, and all the plot setups if you can't follow whats gonna happen next you should be on life support cause u gotta be brian dead.

Why don't they get bendis or kirkman to write the script, they do fantastical and chessy but it works, surely it wouldn't be much of a stretch to translate that to film.

The fear I have tho is it's raking in the dollars so no matter what the studios thinks they've got it right so next spiderman 4 = batman and robin.

I hope the fuck it up so they have to start again a la batman begins.

As stan lee says NUFF SAID! (see cheesy!)
