Just saw it last night. Still trying to wash the image out of my eyes of Parker disco dancing in the street.

When I watched the first 2 I thought I'm not a Spidey comicbook fan, but from what I gathered they got it just about right.

When I watched this one it felt as though they threw the comic book out the window and decided this is the perfect moment to put their stamp on it.

So in saying that..... If you divorce yourself from the comicbook. It's quite an entertaining movie.
