I looked in the 3D forum, and I didn't see this Thread, so I am starting it.

I have some requests for all the Poser/Bryce/whatever artists out there, and I think they are relevant to the medium.

First of all I would like to see either AndrAla or Mouse from the CG series "Reboot". I am interested to see how our artists will address already CG characters. Perhaps there are existing suits/templates/whatever?

Reboot:

In this vein, I would also like to see the CG version of Aeon Flux, created for the Aeon Flux video game, done in Poser/whatever. Please watch the video game trailer, and you will see why I would like to see her rendered.
