Sry, I forgot about the 999. It's actually 666 upside down, but too many people seem to like He!! and other fiery things as much as I do.

Also, before Darkwinter, I also had Copycat and He!!cat. Copycat is actually an original char. of mine (my first) from back before I started getting to know obscure and non-x-men Marvel chars. she is a psionic shapeshifter, like marvel's copycat, but I created her all on my own. She looks differnt though; golden reflective eyes, long tail like nightcrawler's (or a rampharincus), and she's "black". He!!cat is from my fav animal and I love fire.
