Hi there!
Had this crazy ideia about doing a manip of one characther from each country in the world, at least the ones with it.
I want to do comics related or "superheroish" characthers, already seach the web and so far my choisses are: Captain Canuck for Canada, Tenax for France, Captain or Major Brazil for Brazil and for the USA, well, must go with Captain America.
My ideia is try to find a hero or superhero/heroine create and publish in each country.
So if anyone out there want to sugest any, please do. I thank you for that.
But if possible, with a link to that hero or some picture and if possible a bit of history about it.
Maybe I'm asking too much, but, what the heck, maybe worth the try...
