hey all,

I saw the movie last night and I must say I enjoyed it. there were a few dumb moments, but in all, it's a very entertaining two-and-a-half-hour bit of mind candy. interestingly enough, the guy who voice Optimus Prime in the movie is the same one who voiced him in the cartoon way back when. Miss Fox also made the movie pleasant to watch as well. so, I'm glad I went and hopefully everyone else enjoyed it as well.
