Not sure if this has already been discussed. I'm looking for any site ( preferably NOt pornographic) that has High Quality pics of men and woman. I've already visited the U.S. version of [www.theplace.ru](http://www.theplace.ru) but haven't really found anything all that great ( for me anyway). So does anyone want to share where they get their hot looking HIGH QUALITY images? I'd really appreciate it.
