Did we read the same book... I never saw him sailing away. My book ended with Harry and Ron trying to rob an old west bank and getting gunned down in the streets, like the dogs they are, by Wyatt Earp. Good thing Hermonie left both these fools for Billy the kid. And to think.. I thought this whole series was happening more or less in the present. I was shocked that Godzilla lived in the lake outside Hogwartz... that was a big shock too. This book was full of surprises.

I head thru the grape vine that there will be a third book...Click-->[The Story Of Hermonie](#)

The last installment was fantastic... read it!!! NOW!!!
