... but why does Gwyneth Paltrow's Pepper look like a man, baby?

Pepper?

Whaaa??? Is Pepper her name in the movie? As you can probably tell, I know nothing about Iron Man. Always thought he was kinda goofy. But a good superhero movie is always fun!

Why does Downey Jr. look like the bearded lady?

Maybe they ought to switch roles.

And I can't believe that is Jeff Bridges. It looks nothing like the Dude.
