OK guys and girls I have a whole bunch of Marvel poser stuff if anyone needs it, I know this is a winner take all thing but it doesn't hurt to give something out to make it better. I have the following stuff to hand out if you need it:

For V3:

Electra

For M3

Spiderman and about 10 textures

punisher

silver surfer

and I think I can find an IronMan also

I may also have a V4 electra if not it is a freebie over at redorosity you will just have to search for it.

If anyone would like to team up let me know I would be willing to work with anyone!!!
