Hey folks, it's your friendly neighborhood Ninja speaking.

I've been asked to present you 3D folks with a challenge for the month of October but because I'm a little slow, it'll run until Saturday, November 10th.

So, what's the contest about?

Before I answer that question, I want to explain why it's called 'SUDDENLY...!'

I'd think it's safe to say that the majority of us are comic book fans. We love sequential art and cinematic storytelling. I've seen some of the great 3D comics that have been posted here and I'd love to see this contest get folks into making more of them and posting them here.

Your entry must follow these guidelines:

1. It is a ONE page piece of work with MULTIPLE panels on said page. No multiple postings of individual pieces of art. I want to see how you layout a comic book page.

2. The main thrust of this page is to reveal a turning point of a story or a crucial plot point that is pivotal to the story. You don't have to explain the whole story in the art but you may wish to include it with your comments when you post it.

3. You MUST have all 3 of these items appear in your panels.
   A. A time piece. (eg. Hourglass, sun dial, Rolex)
   B. Water (eg. Ocean, glass of water, beads of sweat, ice)
   C. An animal (eg. Kola Bear, Dinosaur, horse) INSECTS DO NOT COUNT

These items don't have to appear on the same panels, unless that is how you want to work it. (eg. If you do a 9 panel layout, you could have the water on panel 2, the time piece on panel 6 and the animal on panel 9.)

What's in it for you?

First prize is a $30 gift certificate to DAZ3D and Gold Membership. Second prize is a Gold Membership.

How are the winners determined?

By a panel of 3 judges. BioHaz Daddy, Jr. McDeath and I will determine who the winners are and they will be posted Monday, November 12th.

If you have any questions, feel free to PM me here at Heromorph.

Good luck and good posting!

Are there any particular submission guidelines as far as format and such go (ie: max resolution, program limitations, etc.)?

Also, where should we submit our images to, what section of the gallery and should they be titled in any particular manner?

Thanks for the answers, this sounds like a lot of fun.

JB

JB,

Thanks for your questions!

There is no program limitiations. I just needs to be 3D. You can do ANY postwork you need to with ANY program. Max resolution, that's up to you but keep in mind the usual submission guidelines for the site.

Please, post the image in the 3D section and begin your image title with SUDDENLY..

Thanks again,

Tartanninja
