at least it shows sings of life... so nobody has backup site for this kind of emergency?

GOUGE, how does it work Z-cult FM?... I saw the site but I can't see any search button?

Sorry been offline a bit with computer issues. You need to register for the z-cult forums and get a few posts. (like maybe 10) and after that you will see the links to the trackers (3). Each tracker has a search feature.
