Has a Hobbie i do it for 20 Years

For real work i do it a few years ago because i dont think i did reach the quality i want.. ..im doing it because i love this life of drawings!

still...

i am working in my stuff for almost for 16 years and i discover as the time passed by i get more interested in the art of drawing and coloring

then a few years ago i do some ilustrations and character designs and concep art to some artists and i am developing my hown story.

My latest work was some pics to a fiction movie in America ...it was a great experience and it was painted by a professional guy...great stuff.

If you want you can see other stuff at:
