Ok, so we got one argument crossing 2 threads?

Well, I already said a bit about the whole commenting thing on the other thread so.....

I tend to show people art I drew back in the late 80s. It is a reference point to show them that between the ages of 5 and 28, my progression had moved at a snails pace.

After stumbling upon HM and becoming surrounded by artists like Android, JrMcDeath, and BioHaz Daddy. I've since taken a look at my art over the last couple years. It shocks me how much I've progressed in that short amount of time. And I named those 3 artists because I admire them, aspire to be as good as them some day, and frequently pick their brains so that I may learn from them. And not only that, I count them among my close friends.
