They can suck it. Its not like they don't make an a\$\$ load of money the first time around. But I am just pissed that there are unions. Yeah, I need a union job. Work for an hour... take two off... repeat.

I would like to know what kind of money the cast of Voyager make off of the sales of the DVDs. Then I might side with the writers. But once Jay Leno and Letterman run out of content.. I am sure thta they will start pushing to get these money grubbin' jacksticks their money. So, this won't last long.
