Fine...

Buncha wimps

HP is determined by your average posts per day.

MP is determined by your join date related to your post count.

EXP goes up each time you post, and when you get to 100%, you gain a level and the EXP drops to 0 again.\*

I actually had to go look this up in the read me file that came with the forum because I had no idea either

Now we know...and knowing is half the battle!
