I like the coloured Cyberman. You think that would be commonplace, they would get custom paint jobs to tell each other apart.

As for casting a terrible actress as Wonder Woman... if you accept that the movie is going to be terrible anyway then you might as well have some eye candy on the screen.

And it is common knowledge that unless an actress is a superstar they can convince her to get her boobies out on film.

Then it doesn't matter how terrible the movie is... half the population would buy a ticket (and a DVD, for research purposes).
