I have been trying to post an image that seems to be under the size limit (about 1800x1900) and under the file size limit (about 165mb) but it won't post! I have tried 3, count them, 3 time to post this image! the other 2 after it posted. Any idea why this one won't?

ty to everyone who's been so helpful with trying to solve this problem thus far.
