In my opinion this is a big waste of time. Why are they trying to bring G.I. Joe to the big screen? What's so special about them anyway? All they are is a bunch of glorified soldiers! Blockbuster comic book movies nowadays feature over-the-top effects and larger than life characters. Although I liked the comic and the TV cartoon show, the only reason I could think that anyone would want to see this movie would be to see how each team member is portrayed. Sure, they're gonna do it..but unless they have a really cool plot and great action and effects...then this one is best served for TV or DVD.
