To clarify - I would like to see the regular and adult galleries treated equally as the pics are only placed in the adult gallery to keep sensitive eyes away.

I would like to see 2 or 3 'general' categories because most of the manips are female characters and many deserve to win.

Beginners should be those who have started using the software. E.g. Grimey and myself had both used art software before so we don't count.

And I think nominations for all categories can be made by anyone (including the artist themselves) and decided by vote, just like last time.

Kallisti is going to take 'Best Furious Max' <I>again?!</I>

I'm gonna whack him in the knee with a baseball bat, then I can't lose...
