the move will most likely happen this week or next week.

The site backup was taken last friday, hopefully the site transfer will go smoothly and everything will get transferred over but there is a chance that we may have to go back to the date of the backup. there is also a chance that some things might not make the transfer.

If you posted anything since friday and it goes missing. please feel free to repost.

Also expect some site outages during the transfer and in preparation of the transfer.

thank you.
