Hey VL, is this what you are looking for?

<http://heromorph.com/heromorph2/modules/myalbum4/photo.php?lid=2199> I am going to assume that her origin would be similar to the real Logan so I used that for the background, I went with a shorter cut that framed the face that would be the most practical for her attitude, I don't think she would be the most feminine creature out there

Hope you like it.
