Hey all you 3D artist's out there Heromorph is fixing to launch the first of many exclusive 3d Products, in the hopes of generating interest in our site by 3D artists that may have never heard of us before. In Febuary we will be having a contest to give away the first copy of our premiere Character Pack called "Pin-up Queen for V4" She is based on the 50's pin-up icon Bettie Paige. We will be announcing the contest soon so get your poser and daz programs warmed up and if you have any ideas for future characters, please post your ideas here and then we will have a poll to pick the next character to be made when the time comes. We are hoping to produce 3 to 4 Products a year depending on how well this works, so please tell your friends that work in 3D to stop by and look at what we have to offer. For a view of the new character look here
