I'd like to thank all of you that have contacted me about this. I have set up a website [here](#) so that I don't have to email large files to multiple people. There are 6 pictures of Shandril up there now and I may add some more later.

And though I would like at least one of her as Harley, if anyone thinks that one of the pics would be good for someone else, feel free.

VL, there are also a few drawings that she had done and not had time to color if you want to color one of her drawings.
