Once again I say to you "I plead the 5th, I can't recall, maybe, what's in it for me to tell you?, can you rephrase the question?, Object, the question calls for speculation!, Objection! Leading the witness" Or as former President Clinton aka "Slick Willie" might answer "I did NOT have sex with that Monster!"

And why does it have to be Godzilla? Why must people put that kink of preasure on lesser monsters to live up to that overgrown lizards clawprints? You should be ashamed of yourself for give this newcomer to the wanton distruction scene a complex like that!!!

Lets see you guys top that one!!
