Boy you guys are in for it now!!! Don't let Chupa see this or you will never see the end of large breasted superheroines!!! I for one, also like big breasts, but I like to see her rear bumper to be filled out a little too. I am not talking wide load sign big, just a little smaller than J-lo size is perfect with large breasts. And for the record my wife is a G cup, so they would have to be drawn HUGE for me to say DAMN those are big breasts!!!!
