I saw the movie a week ago and as always I sat until after the credits and when me and my bro went to see it today he asked me there was anything after the credits, I said "oh yea"

. So we sat and waited, while we waited he told me his idea for introducing the Avengers, the credits ended and the Nick Fury scene played, should have seen the look on his face, it was pretty much what he had just said word for word, except in his version it was the end of the Thor movie.

just thought I share that

Oh we both agree the movie ROCKED
