SPOILER WARNING

Well, I watched the hulk movie last weekend, and the only thing I can say is...
... This movie is nothing like the previous one, I even liked the parts when Bruce is trying not to transform into the hulk, and the combination between the original tv series and the ultimate universe in marvel comics wants you to see more, and the CGI are awesome!.

And finally I loved the cameos of Stark (and Nick Fury at the end of iron man)...marvel is creating great expectation for the Avengers movie...at least for me.

I am very glad to hear that it didn't suck. (like bio does) After the first one, that I actually liked a little, my hopes were not very high for this movie.
