When Voting I hope the judges take their time and make consideration for the art not the person.

Mostly because it would be unfair to Bio. He eats babies and skins Puppies.

I concur with Hawk, up until the baby and puppy thing... mostly cuz he has that backwards. It's hard for him to keep details like that straight when he is so terribly busy selling Canada's elderly into sex slavery. So the judges should all keep his well established Middle Eastern ties out of their considerations as well.
