The base pictures are all on my site now.

If the page appears to not be updated click refresh and that should fix it. I am not sure why but my site has been acting weird lately.

I might actually finish an update on it soon. But till then.

Get to work everyone.

On July 3rd, the sign up cut off, if no one else joins I will added in some bonus base pictures. These picture can be use but do not need to be. You will get bonus points for using them. Have fun. Lets see some amazing manips.
