...The comments I made are intended for those artist that posted comments saying that 3D art is nothing more than a program and should not be considered art...

Maybe I'm reading things differently than you are, but I just re-read this entire thread and I don't see anyone making comments like that.

I would have to agree with ODS, I haven't seen anyone here say anything close to that here. But I also know that MC is a special friend, he takes the short bus to HM. So I know he is probably talking about conversations at other sites or perhaps just the ones in his head
Poor poor MC.
