after a bunch of thought and consideration we have decided to return the ability to vote on images in the gallery to the members of the site.

I am personally hoping that this will help increase site participation and involvement.

this feature was previously limited due to abuse and complaints. so we will be monitoring it a little at first.

Please rate images fairly.

Look at the image and give it your best opinion 1-10.

1 being painful to look at and 10 being a awesome picture!

Thanks to the Mods for trusting us to act as responsible adults...hope we don't screw it up again!
