hey Jr,

thank you so much for the nickname.
though I would like to
think I'm better looking than Howard Stern. I wouldn't mind the
hot wife and sweet bank account though. actually the Who songs,
according to this Yahoo group LADY HEATHER'S DOMAIN, come from
Jerry Bruckheimer and Anthony Zuiker being huge fans of the group.
as for Chilly's comments on the main leads, Grissom is interesting
because he takes the professorial, philosophical approach while
Mac does need a little loosening up (though I guess he left for
Chicago the end of last season) as for Caine, yes he is a pompous
ass you like to smack.

as for the ladies, who would this group like to shag? the NY girls
do nothing for me, not even Melinda. MIAMI Duquene and Salas, VEGAS
Willows (perhaps) and maybe Sara. any favorites?
