Okay, I know it was somebody from this site. Which one of you is responsible for this:

<http://www.wonder-who.com/index.html>

Yahoo is reporting that somebody started this website as a slow reveal on who would play Wonder Woman in an upcoming movie that apparently is in pre-production. The slow reveal showed Megan Fox, but the site and information from it was revealed to be fake. The picture of Megan Fox is very well done and I just know it was somebody from Heromorph responsible for it.

If that is the case, bravo! News agencies were actually announcing that Megan Fox had been given the roll.
